FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Health and Senior Services, Department of Public Safety, Missouri Highway Patrol, Division of Fire Safety, State Emergency Management System, Boone County Sheriff's Department, Columbia Police Department, St. Louis County, Cass County, Parkway School District, City of Kansas City, and Linn State Technical College** assume the proposal would not fiscally impact their organizations.

Officials from the **Office of Secretary of State (SOS)** state many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Officials from the **Attorney General's Office** assume that any potential costs arising from this proposal can be absorbed with existing resources.

Officials from the following cities did not respond to Oversight's request for fiscal impact: **Springfield, St. Louis, St. Joseph, and Columbia.**
